

QUICKSILVER INFLATABLE BOATS

QUICKSILVER
INFLATABLE BOATS

QUICKSILVER INFLATABLE BOATS...

When quality counts.

Key reasons to buy...

- 1 Quicksilver quality & strength**

Every Quicksilver is manufactured using the highest-quality components. All MEHLER Haku® PVC models feature thermowelded seams and fittings for superior strength and durability. While lightweight, they've been re-designed to take the additional weight of today's outboards.

The Achilles® HP models offer the piece of mind of a 5 year warranty.
- 2 Smarter design & performance features**

Quicksilver Inflatables come with essential features as standard. Things such as stainless-steel towing eyes, lifting handles, a heavy-duty PVC coated transom, self-storing oars, oneway drain valve with plug, high-velocity air pump, repair kit in waterproof container and a carry bag.
- 3 3 year or 5 year product warranty**

Backed by the resources of Mercury Marine, part of the world's largest boating group, every Quicksilver Inflatable boat is protected with a full 3 or 5 year limited warranty. The Dinghy series has a 1 year limited warranty.
- 4 A choice of superdurable materials**

Quicksilver Inflatable Boats are made to defy the elements and harsh environments. Choose from either MEHLER Haku® PVC or Achilles® HP fabrics... materials that have set the standard for the marine industry (see next page for details).
- 5 Super tough Transoms that can take extra weight of a 4 Stroke**

To protect against cracking and decay, all transoms are made waterproof by heavy-duty PVC which ensure greater durability compared to traditional plywood transoms. Transoms are equipped with an engine pad and plate for your outboard as well as a standard transom cap to avoid knocks when rigging the boat. Stainless steel towing holes are included in the transoms for skiing, wakeboarding or tubing.
- 6 Wide range of models to suit your needs**

We offer 7 different ranges and over 30 different models, sizes and carrying capacities.
- 7 Inflatable keel for added performance**

All Quicksilver Air Deck, Sport and Heavy Duty models feature an inflatable keel for superior performance and steering.
- 8 Fold-down rowlocks & storage for oars**

The rowlocks are stored on the outside of the tubes on most models, to leave the top areas free for seating.
- 9 High-velocity air pump reduces inflation time**

These pumps provide 20% more volume than earlier models, so you can set your boat up quickly and get out on the water faster. They include a handy pressure gauge that can be placed on top of the pump, to monitor pressure whilst inflating.
- 10 Smart storage bag**

Our folding storage-bag design is much easier than a conventional zipper bag.

The Quicksilver Advantage

They're easy to store, easy to inflate, easy to transport easy to launch, and very easy on the pocket. As a ship-to-shore craft, or as a go-anywhere boat in its own right, Quicksilver Inflatable Boats makes a whole lot of sense.

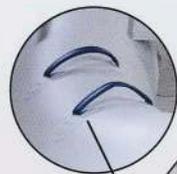

Standard Equipment & Features

- QS double action air pump (+ repair kit)
- Pump Gauge
- Carrying bag for your boat
- Seat

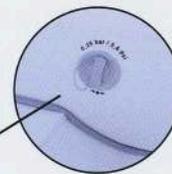

New bow handles

Extra handles inside the tube provide a more secure grip as well as additional holding points.

Material

A choice of super-durable materials...MEHLER Haku® PVC or Achilles® HP.

Inflatable keel

All models are equipped with an inflatable keel under the floor for better performance (except for inflatables that have a rigid hull).

Air-chamber valves

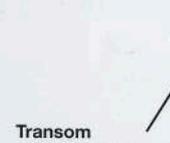

Semi-recessed air-valves, self draining, internal spring loaded quick seal system with plug.

Seats

Boats feature either marine-ply, fibreglass or aluminium seats depending on the model.

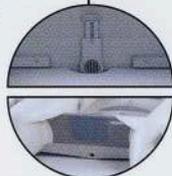

Oarlock system

The oarlock system design has been redesigned so that the oars can be fixed in a simple and secure way.

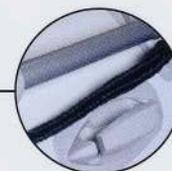

Transom

ABS coated transoms protect against cracking & weathering and are now designed to take the added weight of 4-stroke engines.

Drain plug

With this inside drain valve, there is no more hanging overboard and fumbling around behind the transom with the engine blocking your way.

New lifting handles

The boats are equipped with contemporary lifting handles that also can be used as efficient rope holders.

Choose from 2 super-tough materials...

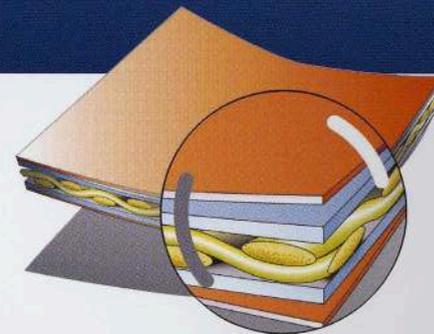

240 Roll-Up constructed of Mehler® Fabric

1 Durable MEHLER Haku® PVC fabric

QUICKSILVER Inflatables are produced with MEHLER Haku®, a heavy-duty, long-life fabric, which offers excellent resistance against UV, cuts, abrasions and normal wear and tear. This fabric also offers maximum resistance against high temperature, moisture and dirt.

QUICKSILVER Inflatables offer one of the best guarantees in the market including 3 years warranty on the Haku® fabric and air holding thermowelded seams giving you assurance of our commitment to quality (excluding Dinghy Series).

QUICKSILVER applies the exclusive technique of THERMOWELDING when assembling the PVC Haku® fabric of its tubes. This process combines fusion welding with high pressure bonding of double internal/external tapes, and is used to assemble the different parts of the tubes with welds stronger than the material itself.

Floors to suit all models....

Air Deck floor

All Air Deck models feature X-stitch inflated floor, providing additional floor rigidity compared with traditional drop-stitching. Our Air Deck floors also feature anti-slip patches. The Dinghy series features a light weight I-bar air floor.

Slatted floor

The Roll up models are equipped with spaced floor slats that make set-up and storage a breeze.

Sport Floor

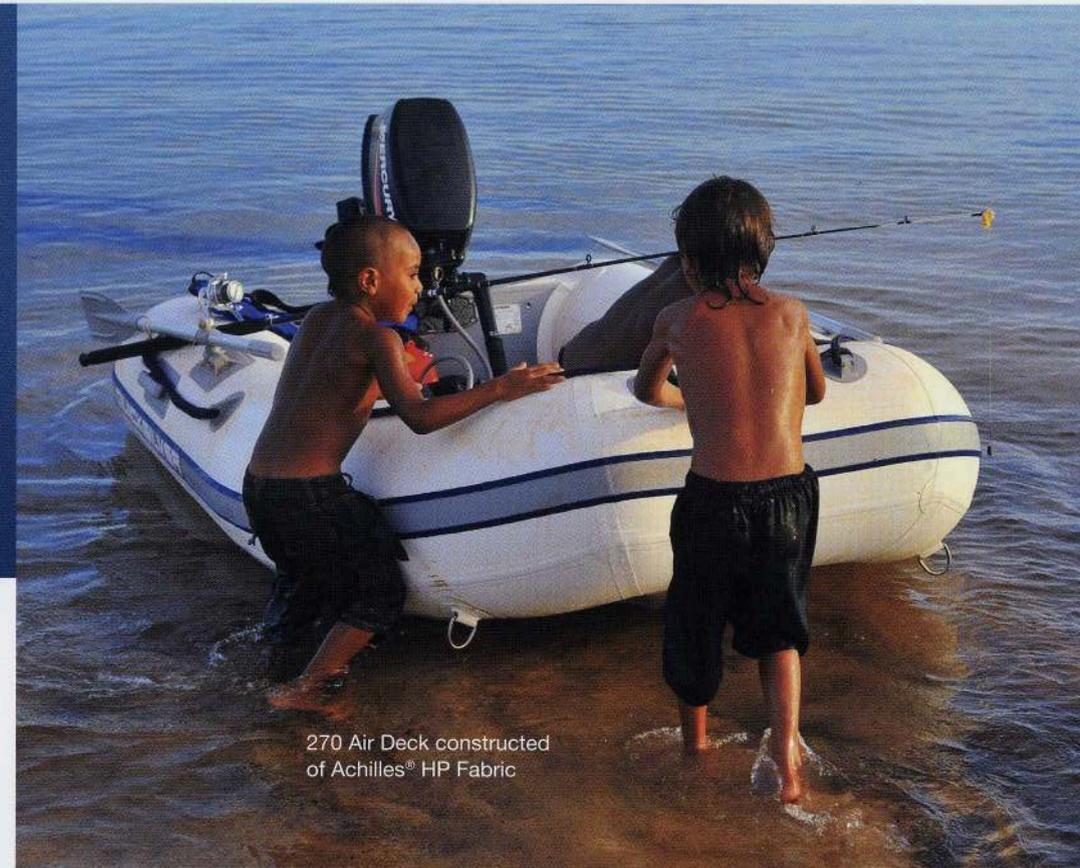

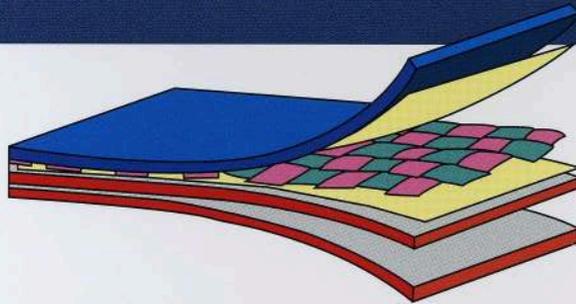

Sport models are equipped with a sectional fibreglass floor. Fibreglass floors are more water resistant than traditional plywood floors.

Super-tough ACHILLES® HP fabric

Our Achilles HP range features a premium quality, extra heavy-duty fabric, which offers superior performance in most extreme conditions...including resistance to abrasions, hydrocarbons, fire, ultra-violet light, and fading.

- Achilles® HP is a super-tough synthetic rubber fabric with an inner layer of Neoprene. Extensive testing has shown that Achilles® HP out-performs other materials, such as PVC in abrasion, oil, petrol, chemical, and weather resistance.
- Its extreme resilience...plus its lightness, toughness and buoyancy, makes it an ideal material for inflatable boats.
- Achilles® HP is a fabric that sets the standard for inflatables around the world!

270 Air Deck constructed of Achilles® HP Fabric

Aluminium Floor

The Aluminium floor is featured on all Heavy Duty models. These are highly resistant floors suited for demanding applications or extensive use.

Rigid Hull floor

The Ocean Runner and Dynamic models feature rigid fibreglass hulls. The Ocean Runner has a sandwich-laminated fibreglass V-hull for incredible performance and a flat floor.

The Dynamic RIB series features a laminated fibreglass hull with VITECH® (Vacuum Injection Technology) process, moulding the hull and transom as one piece for incredible strength-to-weight ratio.

Note: The warranty applies to fabric and seams. There is a 1 year warranty on the hulls of the Ocean Runner and the Dynamic models.

A man and a woman are walking on a wooden dock. The man is on the left, wearing a blue polo shirt with a logo and khaki cargo shorts. The woman is on the right, wearing a light blue and white striped polo shirt and light-colored pants. They are both smiling and carrying a large, blue, roll-up bag between them. In the background, there are white storage bins and the masts of boats.

Convenient storage and
carry bag allows easy transport.
There's nothing to forget,
everything is in the bag.

ROLL-UP 200

Roll-Up models...

Perfect ship-to-shore tenders

Compact and lightweight, these economical dinghies are ideal for ship-to-shore tender, or short trips where planing and speed are not necessary. Set up or pack away in minutes.

Roll-up	200	240
Fabric - MEHLER Haku® PVC 3 year warranty	✓	✓
Max Persons	2	3
Length	200cm	240cm
Max HP	3.5	4
Max Engine Weight	20kg	30kg
Weight (not inc. repair kit, pump & bag)	21kg	28kg

These tough little performers feature-

- Two separate internal air chambers for safety and peace-of-mind
- Slatted floorboards for extra stability
- QuickLift® end-cones for better performance
- ABS-coated transom for your outboard and standard transom cap, to avoid knocks when rigging the boat
- A comfortable rowing seat position
- Dual-action hand pump for even quicker inflation/assembly

For more information refer to pages 22 & 23 for detailed specifications or visit www.mercurymarine.com.au

Dinghies... Perfect on (or off) the road

Ideal for 4x4 and caravan enthusiasts, these dinghies are smaller, lighter and easier to prep-and-store than ever before – yet still safe, stable and heaps of fun. The 200 and 240 Dinghy weigh a paltry 19 & 22 kilograms respectively and roll up into a bag only 1 metre long!

Dinghy	200	240
Fabric - MEHLER Haku® PVC 1 year warranty	✓	✓
Max Persons	2	3
Length	200cm	240cm
Max HP	2.5	3.5
Max Engine Weight	20kg	20kg
Weight (not inc. repair kit, pump & bag)	19kg	22kg

If you want to go fishing, cross a river, or see the sights from the water, these Dinghies are simply ideal to keep in the back of a 4x4 or tucked away in a caravan. The Dinghies are constructed with four air chambers – two on the sides, one for the keel and another for the floor for piece of mind.

These come with a range of unique features-

- 2 separate internal air chambers for safety, plus floor and keel
- Excellent quality fold down rowlocks for easy storage of oars
- Durable grab rope
- Bench Seat
- Compact Size
- Storage bag
- Dual-acted hand pump for quicker inflation and assembly
- They are also covered by an extensive 1 year warranty

For more information refer to pages 22 & 23 for detailed specifications or visit www.mercurymarine.com.au

Air Floor

240 DINGHY

340 AIR DECK

Air Deck models...

With inflatable floor & keel

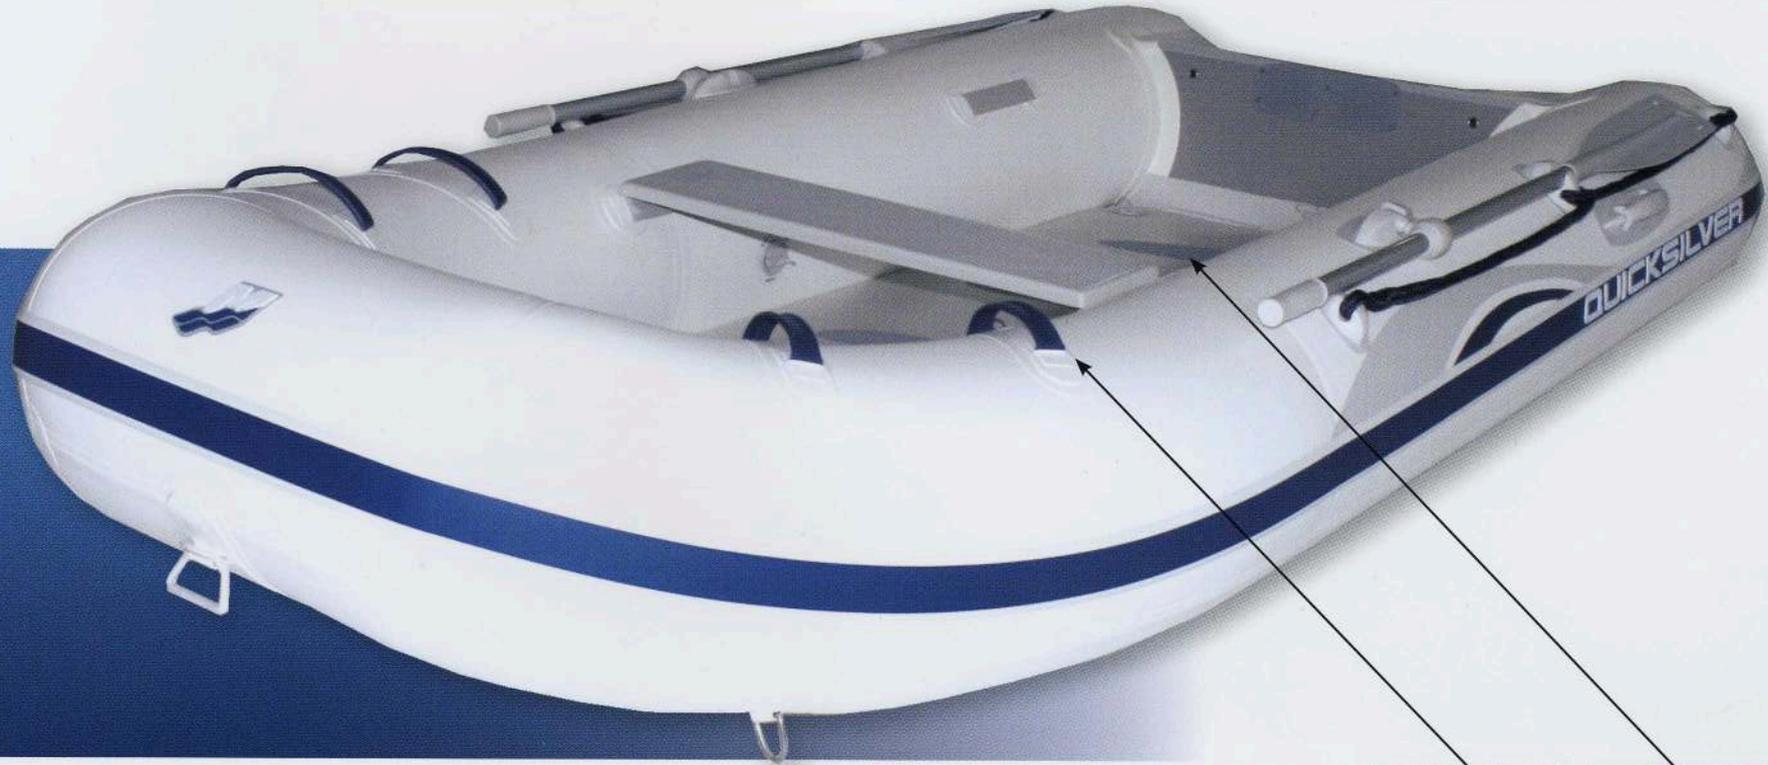

Take the fun of boating with you wherever you go. It may be a favourite campsite, or a fishing spot...whatever you have in mind a Quicksilver Air Deck boat makes the ideal companion.

Air Deck	240	270	310	340
Fabric				
- MEHLER Haku® PVC 3 year warranty	✓	✓	✓	✓
- Achilles® HP 5 year warranty	✓	✓		
Max Persons	3	3+1 child	4	5
Length	240cm	270cm	310cm	340cm
Max HP	4	10	15	20
Max Engine Weight	30kg	45kg	60kg	60kg
Weight (not inc. repair kit, pump & bag)				
- MEHLER Haku® PVC	34kg	37kg	42kg	43kg
- Achilles® HP	36kg	42kg		

Easy to stow in a car boot, caravan or boat locker, they weigh in at around 25% less than a comparable inflatable with wooden or fibreglass removable floor.

The high-pressure inflatable floor gives a rigid and stable floor area strong enough to accommodate up to 5 adults in the largest model. As a tender, or a general purpose boat, the Air Deck Series is a winner!

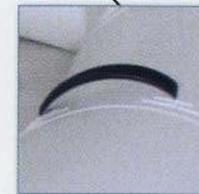

Air Deck 240/270/310/340

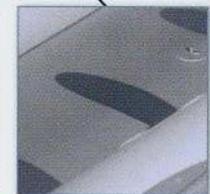

Light in weight, but not in features-

- Rubbing stroke around the tube
- Safety handles for secure grip
- X-stitch air floor. Thousands of x-stitched fibres give much more rigidity than traditional dropstitched air floor. Features non-slip patches for safety.
- Inflatable reel for genuine performance
- No loose parts to assemble and an absolute breeze to carry

- Easier to store, as every part of the boat is inflatable
- Inflatable keel & QuickLift® end-cones maximise performance
- Added convenience of a one-way drain valve with plug
- Sleek European styling and extra interior room
- High-quality Mercury valves
- A comfortable rowing position
- Dual-action hand pump with pressure gauge for quick inflation

Integrated soft
PVC handle

Anti slip patches

For more information refer to pages 22 & 23 for detailed specifications or visit www.mercurymarine.com.au

Sport

240/270/310/340

Sport Models...

High performance fun

These are tough, versatile boats in their own right, and they make an ideal alternative to traditional small boats.

Sport	240 Sport	270 Sport	310 Sport	340 Sport
Fabric				
- MEHLER Haku® PVC 3 year warranty	✓	✓	✓	✓
- Achilles® HP 5 year warranty		✓		✓
Max Persons	3	3+1 child	4	5
Length	240cm	270cm	310cm	340cm
Max HP	4	10	15	20
Max Engine Weight	30kg	45kg	60kg	60kg
Weight (not inc. repair kit, pump & bag)				
- MEHLER Haku® PVC model	43kg	50kg	55kg	61kg
- Achilles® HP model		55kg		66kg

Look beyond the obvious portability and economy, and you'll see boats that offer some serious strength, manoeuvrability and performance attributes. With their low centre-of-gravity and FRP floorboards, these are boats built to go the distance.

They're also big enough to haul plenty of people and gear... up to 5 adults in the largest model...yet light and compact enough to carry and store easily.

These come with a range of unique features-

- Inflatable keel and QuickLift® end-cones for enhanced performance
- Additional floorboard sections to make assembly and storage easier
- The safety and peace-of-mind of three separate internal air chambers, plus the inflatable keel
- Fibreglass floorboards provide extra stability and are suitable for a wide variety of activities
- New dual-action hand pump with pressure gauge
- High-quality Mercury valves
- Tow holes in transom

FRP – Fibre-reinforced Polymer Floorboards

FRP floorboards have the following benefits:

- Waterproof
- No Degredation
- Long lasting
- Buoyant
- More flexible than a wooden floorboard
- Lower thermal conductivity, compared with aluminium floorboard
- Lower cost than an aluminium floorboard

For more information refer to pages 22 & 23 for detailed specifications or visit www.mercurymarine.com.au

QUICKSILVER

340 SPORT

415 HEAVY DUTY

QUICKSILVER

14 INFLATABLE BOATS

Heavy Duty 365/415/470

Heavy Duty models...

Designed to be tough & reliable

Ideal for diving or club use...wherever a heavy-duty inflatable boat with a little extra space is required. These are boats that can carry a lot of people and gear...the largest model accommodating up to 11 adults!

Stainless steel D ring

Reinforced and anti slip tube

Heavy Duty	365	415	470
Fabric			
- MEHLER Haku® PVC 3 year warranty	✓	✓	✓
- Achilles® HP 5 year warranty	✓	✓	✓

- Achilles® HP model	36kg	40kg	52kg

Note: The warranty applies to fabric and seams. There is a 1 year warranty on the hulls of the Ocean Runner and the Dynamic models.

Manufactured with VITECH® (Vacuum Injection Technology®), that combines both the techniques of robotic production and skilled labour, with high quality raw materials, improving handling, performance, durability, and an excellent strength-to-weight ratio.

Key features & benefits-

- Tubes constructed from tough and longwearing MEHLER Haku® PVC, or premium-quality Achilles® HP fabric
- All models feature fibreglass seat
- Non-skid floor for added safety
- Integrated davit lifting points make them ideal tenders
- Conveniently located grab lifting handles
- Double-action hand pump, with air pressure gauge and repair kit
- Convenient paddle-securing clamps

For more information refer to pages 22 & 23 for detailed specifications or visit www.mercurymarine.com.au

310 DYNAMIC

410 OCEAN RUNNER

Ocean Runner RIBS...

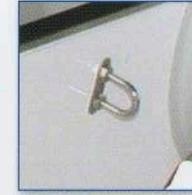

Latest Design & Advanced Hulls

Our new Ocean Runner RIBs (Rigid Inflatable Boats) are very versatile boats that are easy to handle and feature the latest hull design for superior performance, safety and durability!
